HEYCO Qualitätswerkzeuge GmbH & Co. KG

Oval profile, rolled structure, forged ends, for ultra-heavy-duty applications, for precise and safe working

The innovative, oval double-T profile provides highest strength and a particularly safe and secure grip.
The shape of the forged tails guarantees high strength and leverage, especially suitable for use in narrow gaps and tight spaces.
Particularly suitable for dismantling and demolition work and in concrete, road and railway construction.
Suitable for maximum leverage and strain.

Details	
Code-No.	50815770900
L mm	900 mm/36"
Weight	2990
Packaging unit	6
EAN	4024089434583
Packaging	cardboard
